## GATEWAY TO VIETNAM FOOD MARKET the brightest star in the region

Despite having the 3rd largest population in the Southeast Asia with roughly 100 million people, Vietnam is ranked number 4 in the region in terms of full COVID-19 vaccination rate after Brunei, Singapore and Cambodia (updated March 2022).

Vietnam is one of the rare economies to post two consecutive years of growth since the start of COVID-19 globally. The country remains a resilient economy as the country is expected to bounce back strongly in 2022 and become the fastest-growing ASEAN economy, with GDP growth at 6.6% (International Monetary Fund (IMF)).
